

Our Vision is to reduce both children's exposure to diesel exhaust and the amount of air pollution created by diesel school buses.

The goal is to provide funding to local school districts to purchase retrofit devices for their buses or assist in the purchase of new school buses to achieve cleaner air and lower the emission rates of harmful pollutants

# Adopt-A-Bus

The Adopt-A-Bus program provides funding to N. C. school districts to purchase emission control devices.

The exhaust from diesel fuel which powers most school buses on the road today has been shown to cause or exacerbate a host of health problems, including asthma and other respiratory ailments. Diesel exhaust has been linked to cancer and premature death.

Children are particularly vulnerable to the harmful impacts of air pollution because they are outdoors for longer periods and breathe at higher rates than adults. As they wait on the curb, play near idling buses or even ride safely inside school buses, children may be exposed to noxious substances every school day.

Older school buses emit clouds of harmful soot and pollution - fumes that can adversely impact the health of our children.

EPA has certified affordable retro-fit devices that help reduce emissions from older school buses.

## Would you like to help?

- Your gift of any amount will help “clean the air” for school children and their communities.
- Donate money to the Adopt A School Bus program!
- Your tax-deductible donation will be used to help clean the air through the purchase of new buses or retro-fit technology.
- You may, if you choose, designate the school district to receive your donation.
- Donations may be made to the Centralina Foundation, Inc., a 501 (c)3 corporation.

## Donation for Adopt-A-Bus

I would like to contribute \_\_\_\_\_ and designate my contribution to the \_\_\_\_\_ school district.
